

Final Presentation

Guideline and scoring

Guideline

In general, you can present your project in you own way. However, people often expect to see the following contents:

- Introduction
 - Showing the motivation/project context
 - Introducing the structure of your app
- Discussion
 - explanation of approach & work during the project
- Live-show case
 - A simple working demo of your code
- Analysis of design choices and commentary
 - talking about the reasons for/comments on your design

Scoring

Your presentation project will be evaluated on the following aspects.

- Introduction (Is the introduction clear?)
- Discussion (Is the approach suitable for the case?)
- Live show case (Is it impressive?)
- Analysis (Is the design of your app reasonable? any insight/possible improvement in future?)
- Impression of presentation/workload (It is a competition; each team is ranked w.r.t. others)
